November 2021

DGM at COP26

With COP26 in full swing and world leaders gathering to discuss urgent global climate change challenges we are proud to announce that DGM will be represented at this important forum. Founder and CEO Lena Rosenior responding to an invitation from Innovate UK will be a panellist on the **Innovation for All** panel discussion on **9th November at 11:00 GMT**.

About the event - to achieve global net zero by 2050, innovative solutions need to be amenable, low cost and more easily adopted, especially in low-medium income countries. **Innovation for All** describes approaches to innovation that fulfil this aim. This panel discussion will explore **Innovation for All**, in particular how it is good for Britain and business. To book your free ticket visit: [Innovation for All Panel Discussion Tickets, Tue 9 Nov 2021 at 11:00 | Eventbrite](#)

DGM and the United Nations Office for South-South Cooperation (UNOSSC) Cities Project

We are very excited to inform you that in the context of COP26, UNOSSC and UN-Habitat are co-organizing a webinar and launch of the publication **“Innovative Experiences of Cities: Environmental Sustainability and Climate Action through South-South and Triangular Cooperation”** to take place on **10 November, at 7:30 am (New York)**.

The logo for UN-Habitat, featuring the text 'UN HABITAT' in a blue, sans-serif font, with a small globe icon between the words.

The publication was developed based on cases shared voluntarily in response to a global call for submissions from May to June 2021. Twelve (12) cases were selected jointly by UNOSSC and UN-Habitat. **DGM's innovative Waste Management Technology in Africa was selected as one of these case studies**. Please join if you can. Further details can be found here: [Webinar on Innovative Experiences of Cities on Environmental Sustainability & Climate Action through SSTC, 10 November 2021 - South-South Galaxy \(southsouth-galaxy.org\)](#)

Best wishes.
The DGM Team
